

NEW!

Headlight Restoration Kit

Improves headlight performance by removing haze on plastic headlights.

The Opportunity

An estimated 1 out of every 3 vehicles on the road today have faded headlights. That's over 80 million vehicles that potentially need service!

Easy. Fast...

Kit Includes:

- Protective Glove
- Cleaning solution & cleaning cloth
- Lens sealer & application cloth
- Coarse wet/dry sandpaper for removal of heavy deposits
- Fine wet/dry sandpaper for final finish

How Valvoline Headlight Restoration Works:

The cause of headlight fading:

- The majority of today's headlight lens are polycarbonate, a porous surface without UV protection.
- The constant fluctuation of heat generated from the headlight causes the pores on the surface of the lens to expand and contract, trapping impurities. These impurities build up over time, dulling the surface, and reducing the ability for light to pass.

The Valvoline Restoration Kit Process

- Remove the impurities
 - Surface is cleaned and sanded to remove embedded particles
- Seal the lens
 - Lens is sealed to restore clarity & provide UV protection

What makes Valvoline Headlight Restoration Kit different:

- Valvoline Headlight Restoration Kit seals the lens with a long lasting water-based sealer.
 - Water-based sealant lasts longer than wax or polish sealants
 - Water-based sealant will not damage lens like some solvent based sealants
- No tools required

Case part number	705210
Units part number	705208
Units per case	12
Case dimensions	11.945 x 8.320 x 4.265
Cases per pallet	204 cases

Profitable.

Why Service VS Replacement

- Cost Savings: A headlight lens replacement can cost hundreds, including parts and labor.
- Time Savings: Restoring the lens takes less than 20 minutes.

Revenue Scenario (based on 30 cars per day in the service bay)

% purchasing a headlight restoration service	5%	10%	15%
Avg. headlight restoration services sold per day	1.5	3.0	4.5
Avg. Service Price	\$90	\$90	\$90
Est. Daily Revenue	\$135	\$270	\$405
Est. Annual Service Days	260	260	260
Est. Annual Revenue	\$35,100	\$70,200	\$105,300
